

Visual Front Office

BY PRACTICE MANAGEMENT TECHNOLOGIES

Get Out of the Backroom ... & Into Front Office

Designed for medical practices or small behavioral health clinics, Practice Management Technologies' Front Office provides you with the ability to track client demographics and medical/clinical information while increasing revenue by utilizing all the features and benefits our strong billing engine and sophisticated reporting tools provide.

Along with its ability to meet your individual needs, Front Office can electronically track, prioritize and audit billing. Scheduling becomes a snap and countless hours of manual entry are eliminated. Security and access to data is defined by each employee or by employee groups, ensuring client confidentiality and HIPAA compliance.

PM Tech's applications are easily adaptable with other systems which allow for more flexibility and adaptability to current systems you might already be using.

Want to be able to view scanned documents? Front Office can also provide you with an effortless way of bringing all your files and records out of the back room and up front for you and your staff to review and obtain information quickly and effortlessly.

The image displays three overlapping screenshots of the PM Tech software interface. The top-left window is the 'Client Master Form - [CLMSTF]', showing fields for Case Number, Full Name, Membership ID, Address 1, Address 2, City, State / Zip, Home Phone / Ext, Message Phone / Ext, Work Phone / Ext, Cell Phone, Birthdate, Social Security No, User Id, and Control Date/Time. The top-right window is the 'Client Status Sheet', showing a photo placeholder and a table with columns for Family No, Family Name, and Family Position. The bottom window is the 'HIPAA Transfer Form - [HIPAAIRI]', showing fields for Transaction Set, Billing Group, Contact Employee, Agency ID, Site ID, Case No., Authentication Info, Subscriber ID, Receiver ID Name, and Payer ID Name. It also includes Security Info, Interchange Receiver ID, and Application Receiver ID.

About PM Tech

Practice Management Technologies (PM Tech) is a software development company focusing on intuitive products designed for professional medical and behavioral health offices and organizations of any size and complexity.

Our development team at PM Tech has over 30 years of health information management expertise and our implementation and training staff have diverse and actual hands-on experience within the medical and mental health industry. Implementation and training is an integral part of making any application work for your organization so we pride ourselves on having a superior product with superior training. We also pride ourselves on the development of our applications being "customer driven". We work very closely with our customers via user group meetings to discuss what changes/enhancements they feel are needed to make our applications work to optimize the use of your time and positively effect your bottom line.

PM Tech offers three products lines: Visual Front Office, Visual Private Office, and Visual CMH Office. Each suite offers users a "state of the art" software solution that tracks client information and billing, treatment planning, appointment scheduling, medication monitoring, service authorizations, and claims management. Each module is designed to work in conjunction with each other, sharing information to eliminate repetitive data entry, or can act as a stand alone application. PM Tech's products are currently in use by agencies accredited by JCAHO, COA and CARE.
